## EXPERIENCE

**Supply Chain Intern, FLX Electric Bicycles, San Diego, CA** 02/2022 - 05/2022

*FLX is an e-bike company that aims to make transportation more accessible and sustainable through their sleek high-performance electric bikes*

- Worked with cross-functional teams to establish lithium-ion battery recycling programs, improving supply chain sustainability
- Reconciled master data SKUs, costs, and pricing to improve data collection, organization, and business function within Shopify ERP
- Analyzed warranty claims to identify opportunities for company reimbursement and supplier quality improvement

**Fellow, University of San Diego Climate Alliance, San Diego, CA** 02/2022 - 05/2022

*The USD Climate Alliance is a collaboration between the Environmental Integration Lab and Changemaker Hub to further campus projects in sustainability*

- Collaborated with peers, Zero Foodprint, and campus leadership to implement a regenerative agriculture initiative
- Engaged students and faculty at the USD Earth Fair and evaluated support through surveys, analyzing results to enhance initiative success
- Analyzed stakeholder benefits, including student involvement, progress towards 2035 GHG emissions goals, and university marketing value
- Presented environmental, social, and economic benefits to campus leadership, auxiliary, and dining services

**Data Analytics and Operations Intern, Loop, a TerraCycle company, Remote, NJ** 06/2021 - 08/2021

*Loop is a global circular economy platform that collaborates with brands to develop refillable versions of their conventional single-use products*

- Utilized Power BI, Excel, and Tableau to analyze product data and extract actionable insights from large and small datasets
- Presented data visualizations and conclusions to internal teams and leadership in order to improve strategy and operations
- Researched, evaluated, and contacted potential container sanitization facilities for Loop North America operations
- Developed a scorecard and tracker for further facility assessment and selection

**Procurement Intern, University of San Diego, San Diego, CA** 03/2021 - 05/2021

*USD is an institution committed to academic excellence, liberal and professional knowledge, diverse and inclusive communities, and leadership*

- Implemented contract tracking, reminders, and contract owners to improve procurement organization and efficiency
- Assisted the transfer of contract data to the Cyquest e-procurement system

**Co-Founder, Seatown Seaweed Removal, Seattle, WA** 06/2020 - 08/2020

*Seatown Seaweed Removal was started by me and a USD peer to help our local community and combat invasive aquatic plants in a sustainable manner*

- Improved operational efficiencies in sustainable removal of thousands of pounds of invasive aquatic plants from the Greater Seattle area
- Expanded direct marketing campaign through professional marketing collateral and government data, growing our clients and revenue by 400%
- Led project negotiations, ensured project quality, and designed custom solutions for customer satisfaction

**Intern, International Institute for Analytics, Portland, OR** 06/2019 - 05/2020

*IIA helps analytics practitioners build and grow analytics programs through their extensive network of unbiased analytics experts and practitioners*

- Cleansed and validated datasets to eliminate redundancy and improve ease of use; performed exploratory data analysis
- Conducted research on both potential leads and competitors to aid strategy execution
- Curated resources for a collaborative business professional analytics education course
