

CSCP

CERTIFIED SUPPLY CHAIN
PROFESSIONAL

Master supply chain strategy, design, and operations with the APICS CSCP

Earn your CSCP and show employers that you have the skills and knowledge to effectively manage global supply chain efforts and implement essential concepts and strategies to improve day-to-day operations.

This credential empowers professionals with a comprehensive understanding of operations, global supply chain networks, customer and supplier relationships and supply chain risk and resilience. CSCP-certified individuals have the strategic and tactical expertise essential for supply chain excellence and add value across the entire supply chain.

What's covered in the CSCP program?

The CSCP content covers the following key topics:

- Supply Chains, Demand Management, and Forecasting
- Global Supply Chain Networks
- Sourcing Products and Services
- Internal Operations and Inventory
- Forward and Reverse Logistics
- Supply Chain Relationships
- Supply Chain Risk
- Optimization, Sustainability, and Technology

CSCP

CERTIFIED SUPPLY CHAIN
PROFESSIONAL

Prepare for the APICS CSCP exam with expert guidance

The APICS Certified Supply Chain Professional (CSCP) provides a comprehensive body of knowledge, best practices and standards for those in supply chain. Earning the APICS CSCP makes you a recognized expert in the supply chain field. This professional distinction sets you apart from your colleagues, proving your high level of knowledge and skills.

After earning your CSCP you will be able to:

- Help your company reach its ideal supply chain state
- Use data to link production, distribution, purchasing and service
- Reduce waste in supply chains
- Identify and classify supply chain risk and develop risk response plans
- Improve communications throughout the supply chain

INSTRUCTOR-LED COURSES

Expert Instructor-led classes

Join a course with an experienced instructor!

Our certification preparation courses utilize the APICS CSCP Learning System, giving you access to the most comprehensive, effective, and up-to-date exam preparation tools available.

Benefits of an instructor-led course

- Learn from an experienced instructor who provides expertise, insights, and one-on-one guidance
- Network, share experiences, and discuss topics with a diverse group of professionals
- Stay on track to earn your certification with a structured learning experience

In addition to the guidance you'll receive in the classroom, you will also receive the APICS CSCP Learning System. The Learning System provides access to both printed and digital materials. The online platform also includes learning activities, a personalized study experience, microlearning, and convenient access to reading materials.

Who should earn the APICS CSCP?

Ideal for supply chain professionals seeking to advance their careers. Or, if you have any of these roles and responsibilities, CSCP is right for you:

- Oversee supply chain strategy, design, change management
- Manage supply chain technology selection, setup, maintenance or use
- Handle demand planning and management
- Handle customer and supplier relationship management
- Manage risk (identifying, assessing, response planning) in the supply chain
- Measure supply chains and their metrics
- Responsible for supply chain management
