

Free Assessments: Evaluate Your Supply Chain Performance

Gauge how your supply chain performs against industry benchmarks.

Unlock your roadmap to excellence with **FREE Supply Chain Maturity and Organizational Skills Assessments** through ASCM San Diego.

Elevate your organization with a data driven approach to optimizing **4 key areas: People, Process, Performance and Practices.**

Our SCOR-based tools provide business leaders with actionable insights to bridge talent gaps and optimize operations. Receive a high-level review of your organization across seven SCOR process areas (*shown below*).

Ready for transformation?

Contact us today to schedule a brief call with our SCOR practitioner as a next step toward operational excellence.

Benefits

- **Zero-Cost:** For industry leading diagnostics
- **Maturity Mapping:** Review your current state
- **Gap Analysis:** Pinpoint specific deficiencies
- **Talent Roadmap:** Supports upskilling and training
- **Boost Performance:** Use the results as a guide to start a conversation with your teams

How It Works

- **Step 1:** Align on project scope & goals (30-min call)
- **Step 2:** Complete one or both online questionnaires
 - Supply Chain Maturity (1 to 2 hours to complete)
 - Organizational Skills (2 to 4 hours to complete)
- **Step 3:** Receive a comprehensive report for each SCOR process area. An overall rating of your supply chain maturity level and/ or organizational skills (talent) score is provided, and a list of areas to improve, in order of priority. A secure link is issued with results (2–3 week turnaround time).

Custom Tailored Training Solutions

Bridge the gaps with a customized approach. We can provide additional services based on the assessments.

- **Facilitated SCOR Review:** A guided translation of your results with our local SCOR expert. Best if your organization does not have internal capabilities.
- **Strategic Action Plan:** A dedicated roadmap with steps and a timeline to see a measurable ROI.
- **SCOR Challenge (SD EXCLUSIVE):** Hands-on coaching with our local SCOR practitioner to guide your team through solving a real-life bottleneck within your operation. Can be arranged on-site, virtually, or a hybrid mix of both for maximum flexibility.
