

JAMES MCNEIL

Principal -
Supply Chain Management

[MEET JAMES IN PERSON](#)

BIOGRAPHY

Over his four-decade career, Jim McNeil, CPIM-F, CSCP, CIRM, led global supply chain organizations at both large and small manufacturing companies and was also an operations management consultant. He taught operations management courses in the MBA program at SDSU, and with UCSD Extension, and was an instructor for the San Diego ASCM chapter in their CPIM and CSCP certification programs.

Jim's business novel, Think it Forward, is due for release soon.

BREAKING DOWN SILOS: USING THE 3NOK FRAMEWORK TO DRIVE CROSS-FUNCTIONAL EXCELLENCE

Organizational silos are a roadblock to operational excellence. 3 Nodes of Knowledge (3NoK) is a framework that recognizes the interdependencies among people, products, technology, and information across an organization, and breaks down silos while improving process throughput and cross-functional collaboration.
